Program Report

Name of the program conducted: Webinar entitled "Role of Molecular Docking and ADME in Drug Discovery using SeeSAR and STAR DROP"

Date: 03/07/2021

Venue: Virtual through Microsoft teams at 11 am

Relevance to PO's: To upgrade the knowledge of the faculty and students with respect to new developments in the molecular docking and ADME

Objectives:

- 1) To make the participants aware about the various applications of SeeSAR module of Star Drop
- 2) To introduce to the participants the concepts of computational techniques in drug discovery

Beneficiary: Students, Faculty, Institute

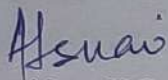

Program Organizing Committee: Institute Innovation Council, PJLCP.

Expected Outcomes:

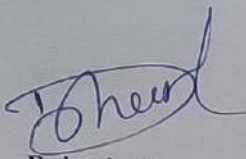

The webinar provided a common virtual platform for all the UG, PG students and research scholars along with the faculty to understand in detail about a range of tools particularly the SeeSAR for compound design, virtual screening and predictive modeling beneficial for drug discovery process.

Attachment needed:
