Rashtrasant Tukadoji Maharaj Nagpur University
Department of Lifelong Learning and Extension

Approved Certificate Course on
"Clinical Research and Development"
under Jeevan Shikshan Abhiyan

Objective:

- To understand the concepts & gain the knowledge of various clinical research aspects
- To increase skilled hands in the clinical research domain
- To develop ability to conduct structured clinical trial with its documentation
- To know regulatory perspectives of clinical research
- To fulfil the need of global clinical trial team

Course Content:

- Unit 1: Introduction to Clinical Research
- Unit 2: Aspects of Clinical Trial
- Unit 3: Management of Clinical Trials
- Unit 4: Ethics and Regulation in Clinical Research
- Unit 5: Clinical Trial Documentation

Who can apply?

Affiliated CERTIFICATE COURSE IN "COMPUTER-AIDED DRUG DESIGN" Under JEEVAN SHIKSHAN ABHIYAN

Conducted by
Priyadarshini J. L. College of Pharmacy,
Electronic Zone, MIDC, Hingna Road, Nagpur-440016

Coordinator:
Sagar E. Shakti,
Asst. Prof. PJLCP, Nagpur

Duration: 15 hours

COURSE:

About Course:
Understanding computer-aided drug design (CADD) will have significant role to impact our life in a big way mostly in the field of pharmaceutical sciences namely medicinal chemistry, pharmacology, pharmaceutical chemistry, and pharmacokinetics. The CADD certificate course is subject to offering the interest of the student community who wish to pursue drug design and discovery as a career. The topics are chosen cover the complete workflow from basic covering introduction to open source databases, algorithms, methods, tool, analysis, and evaluation.

Objectives:

- To gain knowledge of concepts and tools involved in CADD applications.
- To prepare students for the growing pharmaceutical, bio-chemical, and life sciences industry.

Course Contents:

Unit 1: 2 hours
Chemical Structure Representation (1D, 2D, and 3D) Molecular Formula and Molecular Weight Analysis.

Unit 2: 4 hours
OpenSource drug design approaches: Quantitative Structure-Activity Relationship (QSAR) Studies and Pharmacophore Modeling.

Unit 3: 4 hours
Structure-based drug design approaches include Docking Studies, Protein-Ligand and Protein-Protein, Target Selection, Active Site Analysis, Ligand Preparation and Conformational Analysis, ligand- and flexible Docking.

Unit 4: 3 hours
Protein modelling using Homology, Protein Folding and AlphaFold method.

Unit 5: 3 hours
Analyzing pharmacokinetic and toxicological properties of ligand and comparison of lead to drug techniques.

Who can apply?
Student studying in Degree, PG, Research Scholar and Faculty

Course Fee: Rs. 1000/-
One fee for registration: <https://forms.gle/3488888888888888>

Approved Certificate Course in
QUALITY BY DESIGN APPROACH FOR FORMULATION DEVELOPMENT
Under JEEVAN SHIKSHAN ABHIYAN

About Course:
The course involves a new and proven approach to pharmaceutical product development which is now being used not across the pharmaceutical industry internationally. This innovative approach is based on the application of product and process understanding supported by a systematic methodology which can enable pharmaceutical companies to ensure that quality is built into the product. Consistency with Quality by Design is essential for consistent working in the pharmaceutical industry.

Objectives:

- To understand the fundamental principles of QbD, control regulatory requirements, link, relationship between QbD and PAT tools
- To get the practical approach of application of QbD principles in formulation development

Course Contents:

Unit I: 04 hours
Introduction to Quality by Design (QbD)
Fundamentals of Quality by Design, Six sigma and QbD, Key aspects of QbD, Tools of QbD

Unit II: 04 hours
Global regulatory perspectives on Quality by Design
Regulatory perspectives on QbD, ICH Q8, Q9 and Q10 guidelines

Unit III: 04 hours
Design of Experiments (DoE) to pharmaceutical product and process optimization
Fundamentals of experimental design, Selection of experimental design, Screening design, Optimize design, DoE considerations in QbD

Unit IV: 04 hours
PAT tools for implementation of Quality by Design
Relationship between QbD and Process analytical Technology (PAT), In-line, on-line, in-line analysis through PAT

Unit V: 04 hours
Quality by Design approach for formulation development: Case Study
Case study of formulation development through QbD practice, Identification of QbD, ICH, Risk assessment, Out with focus on critical material and process attributes.
